

GET YOUR COVID-19 VACCINE

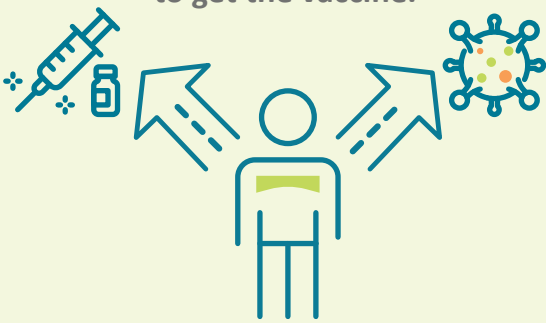

COVID-19 IS MAKING PEOPLE VERY SICK

COVID-19 is the reason you have not been able to do all the things you like to do, like meet with friends and family or go to day programs and work.

People living in group homes will be some of the first to get the COVID-19 vaccination, and soon all people receiving services through Vinfen will be able to get it.

It is your choice whether to get the vaccine.

People get vaccinated to make it easier for their body to fight diseases like COVID-19.

Vaccines are one of the ways to help stop (or slow) the spread of the disease.

If you decide to get the vaccine, medical staff will give you two shots 3-4 weeks apart.

If you have questions about the vaccine, our staff are here to help you get the information you need.

USE ALL THE TOOLS AVAILABLE TO PROTECT YOURSELF FROM COVID-19

Get the shot

Wear a mask

Social distance

Wash your hands
